# Christmas trees

## Christmas Tree **NORDMAN FIR:**

The nations favourite Christmas Tree with Low Drop needles. These trees are literally the king of all Christmas trees; they are the cream of the crop of tens of thousands of Christmas trees and guaranteed to delight! The Nordman Fir has a very symmetrical shape with strong layered branches and dark green needles that like the Fraser Fir are soft and ideal for young children to decorate.

## Christmas Tree **FRASER FIR:**

The Fraser Fir Christmas tree has great needle holding properties, a fantastic slim shape and a unique citrus smell. Fraser Fir Christmas trees tend not to be as wide at the bottom as other trees, so if space is a problem this tree is ideal. The Fraser's needles are a lovely green colour with a bluey coloured underside - they are also short and soft which make them ideal for children to decorate.

## POT GROWN CHRISTMAS TREE

### **NORWAY SPRUCE:**

Potted Christmas trees, a wonderful way to celebrate Christmas - they have been grown in pots all their lives

# Christmas *trees*

continued

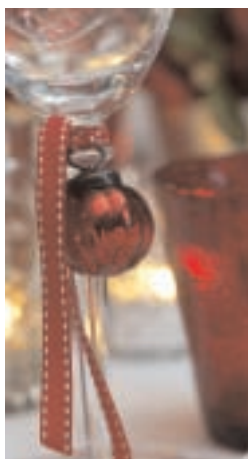

Potted Christmas trees, a wonderful way to celebrate Christmas - they have been grown in pots all their lives and have a well developed root system, therefore, they can be replanted or repotted after Christmas, making them an extremely good environmental tree.
